Welcome.

**At Spring Oak we offer** three homestyle meals per day in our restaurant style dining area, weekly housekeeping services and daily housekeeping staff available, a private transportation service to off-campus outings such as shopping centers, banks, and popular visiting areas, access to internet, and a 24-hour emergency call response system.

**Our caring and skilled medical staff** is available 24 hours a day, seven days per week. The residents of Spring Oak are considered an extension of our family. Our residents remain active socially and physically, and above all else thoroughly enjoy a new quality lifestyle. Our assisted living community offers each of our residents the benefit of receiving care by our conscientious professional nursing staff and a lifestyle designed to make residents living experience as stress-free and pleasant as possible.

## Daily life at Spring Oak

Our dedicated Activities Department offers a wide array of varying activities for our residents to participate in whether you wish to express your artistic abilities, join friends for cards, gardening or craft projects. Take advantage of an exhilarating game using our Wii system which helps exercise your mind and body, all while having fun in the comfort of your home like community. In addition to in-house activities, our Activities Department offers our residents the opportunity to go on outings such as shopping, banking, sightseeing and dining. The activities department is available at the residents discretion. Can't sleep, visit our bistro for a relaxing cup of tea and then catch up on the news in the activities room on our large screen television.

Whether our residents are actively participating in our Activities Programs or simply enjoying an afternoon concert on site or in the community, the quality of life here is our number one concern for our residents.

**Compassion for both our residents** and their loved ones is our top priority. We understand the challenges that can arise when assisting with all the comforts of life for an older adult and our administrative team practices an open ear, open heart, and open door policy to assist individuals involved with the significant responsibility that accompanies the care and nurturing of any older adult in need of healthcare services. This exemplary service that is personalized for each individual's needs is what distinguishes Spring Oak from all others.

**We provide exceptional** physical, occupational and speech therapy at the community in the comfort of our residents' own home and those services are covered under Medicare Part B. We provide transportation for local physician appointments and have other medical specialist visit the community as well. We have recently started a Strength, Mobility, and Balance exercise program to help increase the activity level of our residents. This new proactive approach will help enhance each resident as they participate in the twice weekly program.

Spring Oak provides several levels of specialized services to meet your individual needs. Our uniquely tailored programs combine to promote the highest levels of independence and health by focusing on enhancing quality of life through individualized services in the area of nutrition, health care and recreational activity. Spring oak, rooted in tradition, provides residents with opportunities to share life experiences while continuing to flourish and grow.
